Rose Pots, 2 $\frac{1}{2}$ in. wide, 3 in. high.....	" 5 00

The superiority of our flower pots is acknowledged by all that have used them; they are made of the celebrated Milwaukee Cream Colored Clay, which is very strong and porous, consequently better adapted for plant growth than most pots made from the vitreous clay. They are also much lighter in weight, thus saving freight.

OUR NEW FANCY FLUTED STANDARD FLOWER POTS AND SAUCERS.

These we are now selling at plain pot prices.

MAJOLICA JARDINIERS.

The illustration represents our new Majolica Jardiniers. These jardiniers are acknowledged the most practical of any on the market, on account of admitting a larger size flower pot than any others of the same size of body, at the same time retaining a graceful shape. Most jardiniers, where this point is taken in view, have a very clumsy appearance. Our jardiniers have a white body, the same as China, with decoration of flowers, trimmed with gold, and the glaze on same we guarantee will positively not craze.

No. 457.

<i>A</i> —7 in. diam.	each, \$1 40
<i>B</i> —7½ " "	" 1 50
<i>C</i> —8½ " "	" 2 25
<i>D</i> —9 " "	" 3 35
<i>E</i> —10 " "	" 4 50

The sizes given above are the diameter at top of jardinier. The size at neck or otherwise, the largest flower pots they will hold, measuring outside to outside, is A, 6 in.; B, 6½ in.; C, 6¾ in.; D, 7½ in.; E, 8½ in.

JARDINIERS.

COLUMBIA FLOWER TUBS.

Painted:

These Flower Tubs are made of the best pine wood, which will keep for years without rotting. They are made of 12 staves in tapered shape, held together by 2 heavy steel wires placed in grooves, which are connected with substantial iron handles, and are so arranged that the wire can be tightened or loosened by simply turning the nut on the handle. Should the tub become dry, the staves can therefore be drawn together by this nut which will prevent their falling apart as is generally the case in any ordinary tub.
